Not happy with an alcohol and other drug treatment service?

Make a complaint – get support

If you need help to treat an alcohol or other drug issue, you deserve safe, high-quality support

Who can complain about drug treatment services?

Alcohol and other drug treatment services are health services.

Anyone can raise issues of concern or make a complaint about a health service. This includes you, your family, your friends, staff, volunteers, carers, or a member of the wider community.

Your concerns might include:

• the service you receive (such as being poor quality, unsafe, not being accessible)
• not receiving enough information or choice about your treatment, options, and costs
• being misled about treatment
• being denied respect, dignity or privacy
• not respecting your culture.

Where do I start?

If you are not happy with a health service, it is a good idea to first try to contact them directly.

In many cases, directly contacting the service can be the quickest and easiest way to fix a problem.

Complaints can help health services to identify problems and can sometimes lead to quality improvements for others, too.

If you feel you cannot approach the service or are not satisfied with their response, you should explore your options to escalate your complaint (see over the page).

How to make a complaint to a health service

• If the issue is easy to explain, or caused only a minor inconvenience, try calling the service.
• If the issue is more complex or serious, you may prefer to make your complaint in writing so there is a record of it.
• Be clear about what went wrong, who was involved and when it happened.
• Be clear about the outcome you want – such as an apology or refund.
• Ask for a response to be supplied in writing.
• The service should promptly acknowledge they have received your complaint.
• Once your complaint has been acknowledged, allow the health service time to respond to your complaint. They may take up to three months to respond.
• If you are not satisfied with the health service’s response, call the Health Complaints Commissioner on 1300 582 113 for help.

I need to escalate my complaint

Under the *Health Complaints Act 2016*, all Victorian health services must ensure that comments or complaints about them can be made easily and that any comments or complaints are addressed.
