

Initial immunisation evidence request text

Immunisation enrolment toolkit

(Minimum suggested reminder text)

Do we have your child's latest Immunisation History Statement?

We're required to keep evidence showing your child is up to date with immunisations.

If the Immunisation History Statement we have on file is current, and no vaccines have since become due, you **do not** need to give us another copy of the statement.

If not, please provide us with an updated copy of your child's Immunisation History Statement from the Australian Immunisation Register by [date minimum two weeks from today].

(Additional suggested text for inclusion as desired)

How to get an updated Immunisation History Statement

You can get an updated statement from the Australian Immunisation Register:

- online – through [MyGov](https://my.gov.au/LoginServices/main/login?execution=e1s1) <<https://my.gov.au/LoginServices/main/login?execution=e1s1>> once an account has been created
- [Medicare Express Plus App](https://www.humanservices.gov.au/customer/services/express-plus-mobile-apps) <<https://www.humanservices.gov.au/customer/services/express-plus-mobile-apps>> once a [MyGov](https://my.gov.au) account has been created
- over the counter – at a [Medicare Service Centre](http://findus.humanservices.gov.au/) <<http://findus.humanservices.gov.au/>>
- by phone – call the Australian Immunisation Register on 1800 653 809
- by asking your GP/immunisation nurse if they can print the statement (note, not all immunisation providers can do this).

How to tell if you child is up to date

The 'next vaccine due' date on your current Immunisation History Statement from the Australian Immunisation Register needs to show a date in the future, or say 'No vaccines due'.

Vaccines are due at 2, 4, 6, 12 and 18 months of age and at 4 years of age on the National Immunisation Program Schedule or at a time advised by your immunisation provider, if your child is on a vaccine catch-up program.

Why do we need the latest evidence of immunisation?

In Victoria, the law requires early childhood services to take steps to make sure we have the latest immunisation information for enrolled children. In the unlikely event of an outbreak of a vaccine-preventable disease, we may need to work with health authorities to quickly identify who could be at risk and what actions or precautions need to be taken to best protect children's health.
