# Background

Statements of Priorities are key accountability agreements between Government and Victorian publicly funded health, mental health and ambulance services. The content and process for preparation and agreement of the annual Statement of Priorities is consistent with sections 65ZFA, 65ZFB and section 26 of the Health Services Act 1988.

Statements of Priorities are consistent with the health services' strategic plans and aligned to government policy directions and priorities. The annual agreements support the delivery of, or substantial progress towards the key shared objectives of quality and safety, good governance and leadership, access and timeliness, and financial sustainability.

A Statement of Priorities consists of four parts:

- Part A provides an overview of the service profile, strategic priorities and deliverables the health service will achieve in the year ahead.
- Part B lists the performance priorities and agreed targets.
- Part C lists funding and associated activity.
- Part D forms the service agreement between each health service and the state of Victoria for the purposes of the National Health Reform Agreement.

Performance expectations and mechanisms used by the Department of Health and Human Services to monitor and manage performance are described in the *Victorian Health Service Performance Monitoring Framework 2018-19*.

High standards of governance, transparency and accountability are essential. In this context, the Victorian Government commits to publish Statements of Priorities by 1 November each year and place more data about the performance of our health system into the public domain.

# Strategic priorities

The Victorian Government is responsible for ensuring that a wide range of health services are delivered to the Victorian community. The Department of Health and Human Services (the department) develops policy, funds and regulates health services and activities that promote and protect the health of Victorians. Through the department, the government funds more than 500 organisations to provide various health services to Victorians.

## Government commitments

The *Victorian Budget 2018-19* provides an extra \$2.77 billion over 5 years for health, mental health, ambulance and aged care services across Victoria, including:

- \$1.6 billion over four years to meet hospital services demand to respond to growing patient demand across Victoria
- \$583.8 million over four years for mental health and drug services
- \$362.2 million over four years to improve access to elective surgery, to respond to demand, reduce waiting times and to maintain the current performance of Victoria's health service system.
- \$50 million (in 2017-18) for a *Winter Blitz* package to support health services to prepare for the 2018 winter flu season.
- \$55.1 million over four years for an additional 90 paramedics to meet increases in demand for ambulance services.

To support this investment, the Andrews Labor Government is funding a \$1.3 billion acute health capital, infrastructure and equipment program.

This investment will support the implementation of Health 2040: advancing health, access and care - which presents a clear vision for the health and wellbeing of Victorians and for the Victorian healthcare system.

The Commonwealth funding contribution outlined the 2018–19 Commonwealth Budget was based on estimates and has since been updated by the Administrator of the National Health Funding Pool, based on latest activity estimates from States and Territories. However, given that final funding amounts are based on actual activity, there may be adjustments to funding throughout the year as a result of reconciliations and other factors outlined below.

- Activity loadings are included in the Estimated National Weighted Activity Units (i.e. Paediatric, Indigenous, Remoteness, Intensive Care Unit, Private Patient Service Adjustment, and Private Patient Accommodation Adjustment).
- In situations where a change is required to Part D, changes to the agreement will be actioned through an exchange of letters between the Department and the Health Service Chief Executive Officer.

Ambulance Victoria and Dental Health Services Victoria do not receive a Commonwealth funding contribution under the National Health Reform Agreement. Dental Health Services Victoria receives Commonwealth funding through the National Partnership Agreement.
